hotel europa Garda, IT	**Communication on separate waste collection**	**Mod11** **Rev.00** **30/05/2025**

Dear Guest,

Our establishment is committed to reducing its environmental impact every day by adopting sustainable and responsible practices.

We believe that protecting the planet is a shared responsibility: for this reason, your contribution is also valuable.

We invite you to collaborate with us in waste sorting, a small daily gesture that has a big impact on the future.

How to sort waste correctly

- **Glass** → bottles, jars and glass containers, thoroughly emptied and cleaned.
- **Paper and cardboard** → newspapers, magazines, sheets of paper, packaging and cardboard boxes (without plastic or food residues).
- **Plastic and cans** → plastic bottles, containers, thoroughly rinsed food containers, aluminium cans and tins.
- **Organic waste** → food scraps, peelings, coffee grounds, paper napkins soiled with food.
- **Non-recyclable waste** → small items that cannot be recycled (e.g. dirty packaging).

You will find the appropriate coloured bins in the hotel's common areas. Please ask at reception for any further information. We ask you to take care to dispose of your waste in the correct bin: every correct choice contributes to a virtuous cycle of recycling and reuse.

Why it is important

Every single gesture, even the simplest, contributes to:

- reducing waste sent to landfill,
- promoting the recovery and recycling of materials,
- protecting the natural environment and resources,
- building a more sustainable future for the next generations.

Thank you for your cooperation!

Your contribution helps us to make our hotel an increasingly environmentally friendly place, where hospitality and sustainability go hand in hand.
